NOTEPAD Crack + Product Key For Windows

What's New In NOTEPAD?

Notepad++ is an open source, free, cross platform, multi-language rich text editor, for Windows, Linux, Macintosh, and other platforms. It supports text files in multiple languages, and comes with over one hundred high-performance editing features including syntax highlighting, search and replace, undo and redo, spell checking, line numbering, and more.

Usability and configurability All configuration settings are accessible from the menu bar in the main window. The application comes with both a configuration file and a bundle of settings in an XML format. The settings include:

- Syntax highlighting modes, the type of line numbering, font and background color.
- Search and replace regexes.
- Use regular expressions.
- Use case sensitive or insensitive search.
- Line numbering for normal (every line), one line, odd lines, even lines, and pages.
- Number of pages displayed for the last document.
- Command line arguments for the application.
- View the file in read only or read write mode.
- Open files by double clicking or browsing.
- View the file in binary mode.
- Display the file's contents in a tree view, or as a list.
- View the file's file extension.
- Check spelling.
- Automatically jump to the first spelling mistake.
- Toggle automatic correction.
- Toggle off or on character case sensitivity.
- Toggle line wrapping and line indentation.
- Toggle the number of lines per page.
- Toggle the number of line numbers displayed per page.
- Toggle the number of pages displayed per file.
- Toggle showing the file name.
- Toggle using or not using file paths.
- Set the default path to open files.
- Enable or disable double clicking on files.
- Default value for the file extension filter.
- Default sort order for documents.
- Open recently used documents.
- Toggle the search dialog display on startup.
- Use the automatic indentation for multiline strings.
- Enable or disable mouse scrolling.
- Toggle automatic generation of empty lines.
- Toggle the quick jump on new document.
- Toggle displaying the time the document was last modified.
- Toggle showing the document's file size in the title bar.
- Toggle automatic indentation for multiline strings.
- Toggle tab key behavior.
- Automatically add. to the file extension.
- Limit the number of characters in line or document title.
- Automatically change line endings.
