
Rns 315 V.5 Map Update 13

April 22, 2014 - I see the latest version is 5. My 2013 R-Line is v3. It seems a little old, no? Are we supposed to get any free upgrades or do I have to pay . NET framework, right? Thanks for the answer. Answer: Yes, if you want to get free updates, you have to pay for the .NET framework. It's not very cheap, but it's necessary in some cases, for example if you want to add support for new hardware. Note: If you don't pay for the .NET framework, you won't get the latest version of R-Line - v5. April 22, 2014 â€” I still can't figure out why there are no new drivers (scanners, cameras, printers, etc.) that support R-Line 5.
