Most of you may know the name Rádio Fórum, the audio store chain responsible for giving you an awesome Rádio that can play any song you desire, keep you up to date with the latest releases and you can even watch live TV. At the end of this month, they're having a sale for Fórum Recordeio for R\$120 which means you'll pay only R\$80 for the included Rádio, you can enjoy it at home or even at the beach thanks to the water resistant case and the frequency selection of 100-1600 kHz. The cheapest Rádio so far, but this is coming from a well-respected brand, even if you're not sure about the home Rádio experience, you can definitely try it at the beach and not complain about that, right? The Rádio itself comes with an ultra-wide touchscreen, easy access to the features of the Rádio and a beautiful design. So you can enjoy your music or watch live TV in style. However, the sound is quite poor, although you can't really complain about the price. At the end of the day, you're getting a full array of features for just R\$80. I'm absolutely in love with this radio, in my review I go in depth about the features of the radio and how it can be used at home or at the beach. Anyway, the Rádio is up for grabs to one of you. If you win, I'll send you the Rádio along with a R\$5 voucher for a 6a5afda4c

What's New In Video Flip Creator?

Video Flip Creator is an easy to use desktop application that allows you to create professional looking video flip books by simultaneously capturing a video and multiple photos, adding visual effects such as color filters, contrast adjustments and more. Additionally, the application enables you to add text overlays, add photo and video backgrounds, change the color of the photos and more to automatically create high quality flip books. Visually, Video Flip Creator is divided into several window that allow you to change the image preferences and adjust the settings. The two main windows are the 'Video Settings' and 'Preview/Playback Window'. Video settings are used to adjust the visual quality of the videos and photos you are going to capture. When a new video is being captured, the capture settings will be automatically set to optimize the new video, which makes for a smooth process. The 'Preview/Playback Window' is used to view and edit the captured video clips and photos. When previewing the clip, you can simply drag the windows to reposition or zoom in/out. To capture the video, you simply select the capture button, which allows you to capture new videos or photos at any time. To complete your flip book, you are presented with a preview window that allows you to select the photos and visual effects as well as the text. Once you are ready, click 'Make Book' to begin the process of creating your flip book. When creating your flip book, the application is a customizable one that allows you to change the color of the backgrounds, add background sounds, resize the book and more. It also enables you to create video books, photo books and more from a group of images or videos and the interface is entirely laid out in movable windows that are easy to navigate. One of the unique features of the application is the ability to add text overlays of your choice onto your videos. As explained above, the text can be placed in the left or right of the video, as desired, and you can choose the preferred font. Additionally, you can add photo and video backgrounds to your videos, as well as select the contrast, brightness and saturation of the photos and video.
