# HOW TO GET THE FREE DEAD SPACE REGISTRATION CODE UNLOCKABLE..

A: The EULA for Dead Space 2 (Steam) says: You will need a serial number and a digital copy of the game disc. You will be able to activate once, using a serial number and digital copy of the game's original disc. The EULA for Dead Space 2 (Origin) says: You will need a serial number and a digital copy of the game's original disc. You will be able to activate once, using a serial number and digital copy of the game's original disc. There is no mention of the activation code being for any other game. Dead Space Steam will be releasing soon so it's probably a bug. See the Dead Space 2 EULA here: [Original Origin EULA](#) for reference: The "License Information" section says: Dead Space 2 requires a serial number, and a digital copy of the disc for activation. There is no mention of any activation code. The Origin link is for the Origin version which is actually a different game to the Steam version. I've contacted Nexon and hopefully it will be fixed soon. Influence of social support on health-related quality of life

---

during treatment for advanced colorectal cancer: a population-based prospective study. The role of social support in cancer treatment outcomes has been previously studied, but little is known about its role in health-related quality of life (HRQOL) during treatment for cancer. This study evaluated the influence of social support on HRQOL during treatment for advanced colorectal cancer. A questionnaire on social support was used in a population-based prospective study of 156 patients before surgery. HRQOL was assessed by the European Organization for Research and Treatment of Cancer Quality of Life Questionnaire (EORTC QLQ-C30) at 5, 8, and 12 months after surgery. The social support score was categorized as 0-3. The pretreatment social support score and treatment response were assessed as independent predictors of HRQOL. The effect of social support was evaluated by the median standard error of the mean values of the 5 functional scales and the symptom scales. The pretreatment social support score correlated significantly with the pretreatment social function
