The Warrior of Yatur is capable of powerful attacks as well as basic attacks. It can also consume an enemy to enhance its abilities. The warrior is armed with a short axe or a shield and two swords. The player warlord will only use the short axe as a main weapon, while the shield will enhance the player character's attacks. The other two swords will be consumed by the warrior to enhance its attack range and speed. The warrior consumed by Yatur will become its Chieftant priest, having the following additional capabilities. You no longer have to exit the battle arena, and will be able to perform "enchant" by consuming soldiers/enemy units and generate additional experience. In addition, when a warlord creates a new unit (after expending experience from the "Consume Unit" ability), that unit will always be spawned with 20% more experience than others. (However, it will still be capped at 40% of experience lost from the "Consume Unit" ability.) The warlord can also enhance or customize a unit depending on its preference. For example, he can increase a unit's attack power, movement speed, defense strength, or might. When he consumes a unit, that unit will automatically take on all enhancements at once. With the enhancements, the unit can be improved with much greater effectiveness. However, the player will be able to check whether the unit is ready for battle before undertaking a larger battle. - Yatur Warrior Skin - Warrior of Yatur - Release Date: 08/05/2015 The Risky Business - Release Date: 08/12/2013 Fireball Of Invincibility - Release Date: 07/08/2013 Blood Style - Release Date: 06/17/2013 Nordic Fire - Release Date: 06/17/2013 Super Save - Release Date: 06/11/2013 Extra Upgrades - Release Date: 06/11/2013 Legend Of The White Rose - Release Date: 06/11/2013 Winter Vault - Release Date: 06/11/2013 Clanless And The End Of Ownership Of Clan - Release Date: 06/11/2013 The Punishment Of Sadao's Hate - Release Date: 06/11/2013 The Magic Of The Dark One's Aura - Release Date: 06/11/2013

Is at Hand In the early hours of the sixth day, the city walls trembled with concentrated waves of electromagnetic energy. Voices rasped through static, strained with effort. All through the plaza that divided the barbed wire bunkers, Terminators–the elite forces of the Second World War–let out cries of alarm and confusion. Sunlight poured down from a merciless sky. The hook-nosed hulks of the Terminators surrounded the W-Gene reader, which hovered like a massive bug, offering a single chance for survival. The screen blinked frantically with the old familiar codes. "Invalid access,

invalid access." "No, no, wrong code, wrong code." A new code blipped into view. It was a quartered, double-angled human figure, a woman with strawberry blonde hair. The woman's face was drawn and narrow with indignant concern. She said, quite clearly: "I am Colonel William Gwinner. The signatures in this message are authentic. I have stated my credentials twice, and have not been denied. No programming glitch. No human error. This message has been verified and accepted by the New United Nations." "What is the code?" one of the Terminators demanded, his pale eyes blazing. At her desk, the woman blinked at him, neatly, methodically. She said, "1108..." And the screen went blank. Geneticists at the New United Nations headquarters had scrutinized and cross-referenced all the DNA bits that were at their disposal. But they hadn't expected to go on this particular mission. The President of the United Nations, William Gwinner–the Santa Barbara, California man with no motive or reason–blew up on a Monday, when no one was looking. Once he'd been found and the decision was made to rely on genetic technology to create a healthy, capable man, one who would serve the world with a kind of righteousness that was so badly needed. They decided that a strong enough personality would only be attained by stimulating brain cells, increasing synapse density and the myelin sheath, enhancing cognitive function and memory. So they built someone like Pinocchio, and their man was born. The president of the US, Jordon Watts, was in a baggy sweat suit when
