additional constraints? A: In general, the answer to "Is there a way in Spring Data JPA to pass a query to the server with additional constraints?" is yes. This Spring Data JPA reference page lists out a number of ways of achieving this. In your particular case, you'd need to do this: @Query("select s from SomeEntity s, where s.id = :id and (s.propertyA= :propertyA or :propertyA is null) " + " and (s.propertyB= :propertyB or :propertyB is null)") List  
findByPropertyAndPropertyB(@Param("propertyA") String propertyA,
