[1] Story The Lands Between, where the "normal" world and the "other world" are connected, exist in parallel. In the middle of them, there is a gate that allows us to travel to and from the worlds. However, the gate has been shut down, and what is happening to the Lands Between? Each of the Lands Between is filled with rich history and unique lore. The landscape of each land and the monsters you face will have a different feel. However, the general background is the same. Hundreds of years ago, the power of three goddesses of Time was fused into the Staff of Light and the Dimensional Blade of Light by the God of Time. Since that moment, the Holy Sisters, the goddesses of Time, have been at rest. Now, a new hero whose path has crossed the staff and the blade is coming to power and raising the barrier between the "other world" and the Lands Between. [2] Changing Platform We are excited to announce that the game will be coming to PS Vita on July 19! The first "action RPG" from Nippon Ichi Software, created from the ground up for the PS Vita, this is a brand new fantasy action RPG for PS Vita. The PlayStation Vita has already become a new hardware platform in the Japanese market,

and we would like to offer Tarnished users the opportunity to experience the game on Sony's newest handheld console at a later date. • STORY A multilayered story told in fragments. An epic drama in which the various thoughts of the characters intersect in the Lands Between. • ACTION An action game which mixes standard action game mechanics and dungeon hack-and-slash battle game mechanics. Try to successfully complete missions, depending on the situations, and gradually increase the power of your character. • ADVENTURE An action game where you can freely take on various missions, and complete the adventure through a variety of ways. For example, a mission where you have to find a lost sea monster can be either a hunting mission or a mission to rescue a child. Or you can choose to directly engage in battle with the enemy. • SAVING By acquiring EXP, you can level up and obtain new skills and equipment. By defeating enemies, you can also obtain items such as weapons, armor, etc. • CLASS SYSTEM Each class has its own special fighting skills and equipment that you can obtain through exploration. The class system enables you to freely switch between the classes to freely enjoy the game. • GUILT MECHANICS Enemies will attack you, and will inflict damage. If your HP decreases, the screen will flash. If your HP is

completely depleted, you will become unconscious, and the game will end. • EQUIPMENT You can equip a variety of weapons, armor, magic, and items. And you can freely combine weapons, armor, and items with a specified limit. • LUCKY DICE Win or lose, no matter how it happens, the characters will not change their positions. By rolling the characters' attributes, you can strengthen or weaken their stats and have them equipped with different weapons, armor, etc. • COMBAT Specially designed combat elements that allow you to directly experience the battle elements. You can freely attack enemies in battle to defeat them. However, the battle elements have been designed in a way that, compared to normal combat in other action games, they are not necessarily easy to use. • OPEN WORLD Explore the Lands Between, and discover the rich and vast world. • DUNGEON LAND The Lands Between are divided into dungeons where all the battles take place. Each dungeon is made up of various areas. Explore the map to find secret areas and

I'm happy to announce that I will be working on a new side project: a daretea-based choco creamy treat. I have been following the creation of thedaretea.hk on facebook and was impressed with the many offerings, especially the low-sugar and low-caffeine setting. But you guessed it -- it made me hungry, and so I decided to create some to share. I'm hoping to have it ready in
