Elden Ring

by Yasue Sasai The new fantasy action role-playing game “Elden Ring” has hit the store shelves just in time for summer. The game was released last week for the iOS and Android platforms. The game tells the story of the player character named “Tarnished,” who goes on an adventure in the lands between that lies between the three great lands of Melior. Set in a vast world full of exciting and complex events, and a story that touches on key elements of the Dragon Quest series. It’s a brand-new story where you take control of the main character “Tarnished” as he sets out for his first adventure. The story takes place in a fantasy world filled with adventure and action, where the main character is a boy, but not necessarily a typical boy. He’s the “Tanaka” of his generation, and has a look that’s a cross between an American ninja and a tough guy. Not only do you get to use special attacks in battle, you also get to raise your character stats to increase your strength and attack power. You can also use magic and equip special items to boost your power. Time to get up from your desk and go out on a journey. When you first launch the game, you select the character you want to play with, the map, and the kind of adventure you want to take. After selecting the game content you’re going to play with, you are directed to the main menu. In addition to the main menu, you can also check in on your character in the main map. When you first start the game, Tarnished is not only wearing a ninja mask, he’s also wearing a helmet with an iron cross on the front. If you’re the collector type, you might not want to remove the mask. However, at the end of the tutorial, you can change the mask to one that doesn’t have an iron cross on it. In addition, you can also change the shape of your nose. There are four different designs of the nose when you first start the game. No matter what you choose, the face you create will be used for the game’s first boss. It’s a fearsome enemy you’ll want to defeat as soon as you can. In this game, you don’t have to worry about a
