Ask a new question Branko I don't know. As someone who is really interested in Vamp and has actually played some of the beta more than once I can't help but get excited, it seems like a good game to play again. That said I can't wait for the beta to be free and see what it actually looks like. Yes, I do play GW2 as well, but that's because I'm a terribly hard-headed narcissist. If we're talking Tarnished then it will be interesting to see what they do with the combat and class system since they've scrapped the magicka system. I'm excited about the player base and content I'm seeing there. Young\_PW Offline Mintus Sanguis Do we know how much influence the magic system will have? We had basic mage classes in the beta, but they're gone now. What will the player be able to do now that we have the new combat mechanic? Off topic but I'm excited about the Elder Scrolls Online getting announced this week as well. I haven't played it but I have heard good things. **pursuant to Fed.R.Crim.P. 5(a). Neither did the district court abuse its discretion in concluding that the delay did not adversely affect Rich's ability to present his defense, and that holding this hearing without going through the motions of a formal and extensive trial was fundamentally fair. Finally, it is clear that because the district court's findings were not clearly erroneous, the district court did not err by concluding that the delay was reasonable and the resulting in-court identification by the bank teller was not impermissibly suggestive. See generally Neil v. Biggers, 409 U.S. 188, 198-99, 93 S.Ct. 375, 382-83, 34 L.Ed.2d 401 (1972). 14 We review the district court's determination that Rich's right to a speedy trial was not violated for an abuse of discretion. Cf. United States v. Nilsson, 847 F.2d 460, 462 (9th Cir.1988), cert. denied, 488 U.S. 818, 109 S.Ct. 59, 102 L.Ed.2d 37 (1988) (we review the district court's decision to grant or deny a motion to dismiss for an abuse of discretion). To determine if there has been an abuse of discretion, we first review de novo whether the district court applied the correct legal standard and whether, applying the correct legal standard, the court's factual findings are clearly erroneous. We then review de novo whether the district court's findings support its legal conclusions. See United States v. McConney, 728 F.2d 1195, 1202-04 (9th Cir.) (en banc), cert. denied, 469 U.S. 8**
