Rise, Tarnished, and become an Elden Lord While traveling in the Lands Between, you discover that the lands are under the rule of a tyrant named Cromwell. However, you are a Tarnished and that the rightful heir to the Dukedom of Eald are you and your companions. You start the game as a member of the Dukedom. You can cast spells, level-up your abilities, and take on quests to earn money and advance your skills. While you are undergoing training, you can join other users in an online game. By joining an online game, your life changes and you encounter NPC friends. In the online game, you can travel through the world together with them. Some NPCs are strong adversaries, while some are friendly people who will help you on your journey. You can search for dangerous monsters for higher EXP points. By gathering EXP, you level up, gaining stronger abilities as you level up. You can also use EXP and credits to equip weapons or improve skills. Some Skills can only be gained by leveling up. Even when your character is already leveled-up, you will still need more time to level-up further skills. The adventure continues • Ever-Changing World The world is changing day by day. There are raging storms, the intervention of deities, and even cases of war. You will constantly come across new things and be able to try your new skills. • Explorer's Favourite Design The map is three-dimensional and can be viewed in any direction. You can even examine new surroundings in 3D by using a menu. You can also view the in-depth map using the map book. • Good Battle System You can attack enemies from different directions, or use various types of skills. You can also combine different types of attacks. Attacks can be strengthened by each party member's skill. As you learn more skills, you will be able to increase your skills further. Enemy monsters and traps also have their own strengths and weaknesses. As you gain experience, the enemies you face will change according to your strength. • Improvisation You can fight while moving, which is a new feature for role-playing games. Your party will not automatically move when you aim your bow, so you need to execute your movements yourself. You can also direct your party,
