Take part in the Ultimate Team mode, where you'll be able to buy, sell and trade with other players in both FIFA Ultimate Team Seasons and in MyClub matches. Get your Ultimate Team ready as you strive for your ultimate dream of completing all Career Mode challenges in FIFA Ultimate Team Career Mode. I already own FIFA 21 I don't mind re-downloading FIFA since it's still an excellent game despite some elements being weaker in FIFA 22. But I don't like the cost that EA is charging so I asked them to reduce it to a reasonable price. They just charged me \$800 instead of the original \$700 they were supposed to. EA was supposed to make sure that EA Access members are getting a better deal when it comes to FIFA than the non-members. And with FIFA being an EA exclusive this could have been a good thing. However, despite EA giving us a deep discount for the first month and how the game's BPM and tempo is more of a 7.5 than 8.0 (at best, it still feels like an 8.0), I have to pay more than \$700 now? Not only is this cost too high, EA Access still hasn't been activated (I know this because I don't get any discount on the game even after paying. I also don't know how to add another subscription as EA has totally changed their terms of service). FIFA 22 (also called FIFA 20) is a pre-owned gaming product. It has been listed for a \$600 price since the time it was released last year. However, in the past month, it has only been available at various retailers for \$700. There are a few reasons why FIFA 22 is so expensive. For starters, the game itself costs \$60. However, there is also a \$50 EA Access Membership, \$45 in-game Ultimate Team Packs and a \$60 FIFA Ultimate Team Seasons Pass to purchase. EA Access, also called EA's Netflix service, is a service that gives customers who purchase a given game title a month (or so, not all titles) access to the game free of charge. For players who play a lot of games, this allows them to get the most out of these games for up to \$4.99 each. However, those who don't play a lot of games, can still benefit from the service.

What's new in Fifa 22:

- Introduces yet another new addition to football's most popular game, **Fast Play**.
- **New Features** bring new authenticity to FIFA 22, including marking on-the-ball actions, more realistic player feedback and more passes off the shoulder.
- **Enhanced controls** offer players multiple ways to control and shoot the ball. Your favorite shooting controls such as short and long passes, chip, and high-powered shots are available, while EA has made on-the-ball handbrake sprints easier to execute, and has reworked the ball control system to increase firing and passing accuracy in mid-air and cut the distance between passes.
- **More realistic player animations** add life to player runs, tackles and 1v1 duels and give defenders a different fighting chance against opponents.
- **Finishing touches** to the all-new Career Mode ensure that your journey to becoming a club legend is as authentic as the competition.
- **Exclusive to the Ultimate Team collection**, Ultimate Team Draft is a single weekly draft event, designed for qualifiers and qualifiers for the WC 2018 FIFA World Cup.
- **FIFA 22 Season Pass** enables users to unlock all career modes and features (including the three exclusive Head-To-Head and Random Draft games) and the latest content updates as a single purchase.
- **FIFA Ultimate Team** has all-new player faces, kits and styles, hundreds of re-imagined assets including 10 new player animations and dummies, and the introduction of the mandatory **Player Photo** identity to FIFA Ultimate Team.
- **FIFA 22** introduces "HyperMotion Technology" which uses data collected from live players in motion capture suits. This gives the player feedback on the ball's position, movement and vision, meaning that you'll get more realistic reactions to the movement of the ball on-the-fly. This makes it really easy to pass precise, sharp shots and to play off-the-ball and head-to-head challenges.
- **FIFA 22** also introduces variable weather during Live Fixture. It's important to have a realistic match-day atmosphere in-game: it allows for more natural gameplay and it makes the match feel more authentic.
- **Five new stadiums** will

To make this accessible, FIFA 22 gives players more choice over how they approach the game with the addition of the 'Gameplay Settings', which can be altered to suit individual preferences. So if you want to enjoy a game of FIFA that plays more like EA SPORTS FIFA Street, you can now adjust the 'Tactics' and 'Gameplay' settings to suit your style. This means you can focus on building up the offense, defensively play close to the touchline or simply go into the game with more control.
