Woodcutter Deluxe Edition, a new chapter of the series, adds more obstacles and enemies, new special types of blocks and their own places in the game, but still remains a classic platform game.

Block Types: Woodcutter is not only a good thrower, but also an excellent jumper. If you throw a block, its fragments will be on the level after that block. That's why in order to jump on the fragile blocks, like spikes, you should throw them a little earlier than those without any damage. Tower Blocks: There are 3 types of towers. There are special towers with unique properties, which will be revealed during the game. It's up to you to guess what will be the result of your blocks in them. Special Tiles: Every level has a special tile. When you see them, they will explode, the ground will collapse under it. Sometimes they are killable, sometimes make you invincible and others make death moves automatically fall. How to use them is up to your creativity. A Path of Treasure: You can find 2 types of tokens. One of them is the Treasure Token. If you find it, you will be able to instantly earn coins. But you will have to use it with some actions. If you throw a block on an empty space, you will have to keep a Treasure Token in hand. The other is the Lesson Token. When you find the first lesson, you'll learn the new action. You can use these actions to do something like get extra life, a block with different properties, a special to avoid danger or to get a good effect. This token doesn't require a hand. You'll learn what is by the game. You can throw blocks with a different type by holding a Token while you hold a block. Timers: When you throw a block on a level, it's dangerous for you. You can stop time by throwing a special kind of block when the action has to be performed very fast. But there is a downside. If you throw a block in the middle of a timer, you lose a life. The timer will start again from the moment you throw the block. Bonus Blocks: You can throw certain special blocks on the screen. Some of them have an extra effect. Do you know what they are?
