Harsh winter has come to the kingdom of Lornsword, and it's about time to get yourself ready for that. But what can you do if you're the last living person? Lornsword Winter Chronicle is an upcoming real-time strategy game by the team behind the Lornsword World War series. Winter Chronicle is about surviving the long winter and managing your resources to have enough to build a shelter. Features:

If you haven't tried Lornsword Winter Chronicle on our Website yet, you should go and have a look. We are currently working on a new story, as well as on the next update, and the beginning of the summer will be when we will release the next part of Lornsword World War 4. If you have feedback about the game, don't hesitate to let us know!

Comments(6) [QUOTE=Dark_Dragon1485;1775279]yes, I think for me the only difference between "normal game" and "controller" mode is that in the "controller" mode you need to actually use all the buttons that you can use in the game. If you press "stump" on the controller, and "push stump" on keyboard, you will "push stump". I don't think there is any "hold on", "drag forward", "drag left" etc. Only "stump", "push stump", "drag left" etc in Lornsword. But if you have "push stump" on the controller, and "push

Played the free demo, but since then was paying for the full game to see if it was worth the \$50 purchase. Was happy about this since I do like match three games. Is this a game that people like to play since the puzzle element makes it easy to pick up, and easy to put down once completed. I've heard from friends that it is a lot of fun, however after completing the campaign, there is little content left to do. I wish there was more to do outside of match 3 battles, like collectibles and unlockable characters. The game is very solid, and there are solid and solid match 3 games out there. If you need a solid match 3 game with no charging or mic usage, this is a good buy. I think the match 3 games get more stale the more time you put into one. You get used to the pattern and after awhile you start to know what it takes to make the game a fun
