The SF-36 is a generic health-status instrument, which is frequently employed to assess healthrelated quality of life in both the general population and in different clinical groups. The aim of the present study was to test the reliability, validity and responsiveness of the SF-36 in gynaecology. A cross-sectional study was performed on a consecutive sample of 161 patients, with a diagnosis of gynaecological disease. Test-retest reliability and internal consistency were studied in a sub-sample of 50 patients. The construct validity was assessed using correlations with two other questionnaires (Short Form 12 and the Life Satisfaction

Development · VMware Thinapp Enterprise 5.2.6 Build 14449759 + Portable Misc.Copper-Mediated Aryl C-H Borylation with 2-Pyridylboronic Acid, Ph-Bpin and Naphthalene. A copper-catalyzed C-H borylation of aromatic compounds using α-boryl aryl compounds that are generated from aryl iodides with 2-pyridylboronic acid or α-borylphosphonate esters is presented. Aryl iodides readily react with 2-pyridylboronic acid to generate α-boryl aryl iodides in good yields. The monohydroborylated aryl iodides are ready substrates for C-H borylation. Under optimized conditions, a variety of aromatic compounds were borylated in good to excellent yields.14.1.15 I hope you have been enjoying all of my posts lately. I have been doing some video editing of late so I am back to some regular posts! Today I thought I would do a super quick post on scents. I have always loved scented items so I thought I would give some information on what scents I use and also make a list
