Screenshots from: Civil_3D_Version_WisDOT.zip Features Template Create professional 3D mockups and whole scale models easily and quickly by incorporating AutoCAD and AutoCAD LT drawings to 3D models. Meshing Perform complex mesh operations on 3D models including decimation, pruning, and splitting. This allows for adding more detailed geometry on precise surfaces by reducing complex geometry to its mesh shape. Modeling Add 3D modeling tools for parametric surface creation that can be used as fabric or adornment materials. Topology Generate complex surface modeling with a single click and produce clean topology edges and vertices. Extend Streamline and extend objects into surfaces using the same surfaces for the source and target geometry. Materials Create 3D models with gradient-based paint effect. Various Easily create symmetric mirroring by pressing a button in the interface. Even more, all the above features are customizable and setup for your specific preference.
