I composed the music especially for this game. My website: My facebook page: Other games: - Brücke - Panzerkreuzer - Projekt Furtwängler As the name might suggest, this is an approximation to the (TV series) "Rocky and Bullwinkle", with Rocky the "Flying Squirrel", and Bullwinkle the American Imposter sent to Moscow to be trained as a spy. As with the TV series, the game is set in a dreary, grey world with a lot of staircases, lifts and secret passages. The main character - Rocky - can fly, and build a lot of tools for his missions in the Moscow city. He can also hang, flip, turn, shoot, shoot the energy ball, throw the eggs, jump and many other things. But after 6 stages, Rocky is confronted with Bullwinkle the second time, who seeks revenge for the place in Moscow. Although many sides of enemies are the same, the differences are quite significant. The enemies come in the form of reindeer, a bear and flying squirrel - Rocky's friend. There are more stages, more obstacles and even many hidden treasures. The game was made by two guys - Marc Matisse and Dmitry Syrovatov. In this video they talk about making of the game. 3 more missions are planned for this year! Stay tuned! :) Watch the gameplay video here: It's time for the next for the next mission "Bodacious Bear" which is coming soon! Watch the gameplay video here: Happy Easter! :) If you like the game Bodacious Bear from Peter Fichtel, make sure you watch the gameplay video here: This game is part of our Easter Eggs series. This is a game about the famous cartoon "Pogo". It was part of the famous comic "National Cloakroom". How cool would it be to be able to play as an ancient nephilim or super heavy metal rocker, carrying your own metal on your shoulders, and fight till your last drop of blood?! What's new:

: The Boy and the Beast (1973) [Steven Voyer and Gunther Muller] The Boy and the Beast (London: Polydor, 1973) The Boy and the Beast wasn't the second "Railway Trilogy" decided upon, following the seventies version of Treasure Island. Instead, it made its way into the catalogue with a 1973 provisional title of "The Boy who Called on Witches." The idea had been floating around for some time by then, in the form of an oft-delayed "big studio's budget," and the resulting play was eventually shunted off for TV. (Well, probably, who was the one who didn't want to see "It's a Real Knockout," in 1971, the year prior for us, but that's another story.) Whether it was in the original draft or so it was in the light of day, we had to wait until the mid-seventies to find out. We bought the original flimsy cover one was handed at the record store, and later the "air-high" dust sleeve came to us from our London dealer - the latter was still guarding the fragile vinyl with its unquote hygiene - "just in case your record-collecting friend/girlfriend/neighbour/relatives try to rob

you later.” In the event, they didn’t. We had time for some indulgence. The couple behind the project were Gunther Muller and Steven Voyce. Their debut album was, however, the gifted English duo of Steven Hopkins and Peter Gill played the action side here, who had written and provided songs for the London revue that eventually evolved into The Boy and the Beast. For the person who doesn’t know the show off their own accord, for those who have now accessed it via side two of Boy, and for those who have never seen it at all, here’s a few estimations on the production: it’s a free-jazz club comedy (punch lines that include “Dragons and princesses have very sharp tongues,” and on this record, Bowie comes as close to “the boy with the yodel voice”), which ran for seven performances in London’s West End on December 7, 1971; there is a political undertone, laced with cynicism; and the musical material sometimes anticip
