" Lan Dzemaalsting EPIC, GRAPHICS is flattered and good, gameplay is nice and smooth, camera can be a little bit trickier sometimes, but that's expected in a RPG, such as its length and level design is like if you were in an RPG but it's very refreshing because of the open world and exploration, with the player able to choose a way to get the best in it... 8.8/10 value, damn why didn't this happen in the series? - 12/10 " " This game seems like a mix of Tomb Raider & Pokémon that made it fun and don't be surprised if it gets bigger than Elder Scrolls lol - 8/10 " " DEMO DOWNLOAD LINK So you know when you are playing a RPG and you read the description of the game and you are thinking "Hell yeah, this is going to be a great game." I mean... not a great game, a great game. But then you hear the price tag and.... you can't handle it. You can't. That game doesn't come cheap! But I digress. I mean you are excited about a game already. All you need is the chance to try the game out and for only \$19.99 you can do it right here. That's super cheap! So go try out your favorite RPG in your browser, right here. Gotta say, I am also extremely excited to start my journey through this new RPG. This game has a lot of potential. But I mean just look at the price tag. That makes it a steal. Though admittedly I am a little biased here. Regardless, I have to be honest and tell you that I am not really interested in a number of games. But I am interested in this one. That being said I do plan to play through the first few missions before tackling anything else. That being said, I would recommend anyone that is interested in that kinds of game to try out this game. I am not sure about you but when I think of RPG's I think of character creation, character growth, character journey, and some pretty graphics. And this game is beautiful. Keep that in mind and you might just like it. SO WHAT IS THIS GAME ALL ABOUT? The game that I bff6bb2d33
