### What's New in the SomaFM Player?

# SomaFM Player Copyright (C) 2018 KJAH Productions KJAH Productions See More: Top Best Music Playlist Among the most anticipated mobile applications is Spotify, the game-changing music streaming service that's about to become one of the top music streaming apps on iOS. Hailing from the social playlist pioneer and the new music audio platform, Tap Tap Dance, Spotify is an innovative music streaming app that's designed to revolutionize the way we consume and discover music, making it effortless to find music on any device. Features: Explore music across your favorite services Spotify is focused on unifying music discovery across all of your favorite services with a single, beautiful profile that presents the music you want to listen to at your fingertips. Listen anywhere Spotify is the first audio platform that supports listening offline and streams to any device, making it the perfect place to listen to Spotify Premium all over your home. Play what you want, when you want Spotify offers a rich music player that is easily accessible from anywhere and on any device, making it simple to listen to the music you love. Connect with friends and find new friends Spotify is one of the most social audio platforms, letting you discover and share your tastes, curate playlists, follow your favorite artists and be connected to your friends. Summary Just as its name suggests, Spotify is the best music streaming app for enjoying an extensive collection of over 30 million songs - and now it's coming to iOS! Spotify has been one of the best audio platforms on desktop and Android, offering a beautiful, seamless user interface that makes it easy to find, listen to and share music. With its new iOS app, Spotify is now easily accessible from any device, making it effortless to enjoy music as you wish. Not only can you listen to music on the go, but Spotify is designed to make listening your favorite artists and songs more social. Connect with your favorite artists and find new ones through curated playlists, blogs and more, and then listen together and collaborate on a whole new level.
