Plugins are available for specific AutoCAD projects and platforms such as AutoCAD Architecture, AutoCAD Electrical, AutoCAD Civil 3D, AutoCAD Plant 3D, AutoCAD Mechanical 3D, AutoCAD Space, AutoCAD Unwieldy 3D, etc. Plugins that run in the background are also referred to as background plugins. These plugins are enabled by default in AutoCAD, and are used to gather "invisible" information that would otherwise be inaccessible, such as: Detailed data and detailed information on drawings used as a basis for a product, such as if a drawing is the basis for a composite drawing. The data in this case might include information on the AutoCAD model used to create a drawing, the author of the drawing, the date it was created, and so on.
