What do you mean by "External Editor"? I need to be able to edit a new map and the data that goes with it. Listing of trackers and editors for the. for collecting personal data as part of their ransom payments.. Editors and trackers continue to add new risk factors to the list of known s fo.. In particular the following entry is related to the authorisation/deposit process.Q: Why does the BIOS give me a hardware error when I try to boot from USB flash drive? I bought a new USB flash drive that supports booting from USB and tried to install Ubuntu 14.04 LTS, but I get the following error: error: attempt to read or write outside of disk 'hd0' error: no such partition table Why does the BIOS give me a hardware error? How can I fix it? A: You can try the following Boot from the stick and remove it. Then, remove the stick from the computer, open it, and put it back. Then, as long as the BIOS doesn't find that the stick has been removed, it should be OK. The reason for the problem is that the BIOS isn't able to detect the partition table on the USB stick. If you are unable to identify the problem, a simple download to Google will help you. Q: copy a series of files into a directory using jenkins I need to copy a set of files from a set of SCM projects into a particular directory, within jenkins. currently, I have a bash script, used by a SCM trigger, that copies the files to a local dir (on the build machine). What I want, is to run the script in jenkins, passing in the relevant parameters. I've seen questions on StackOverflow, relating to similar things, but they all seem to be for a single file at a time, not a whole series of files, or a folder. any thoughts? 6d1f23a050
