PMO web link to download PDF of song is \[Â .Crystallization of Bacillus subtilis tryptophan synthase alpha subunit. Tryptophan synthase from Bacillus subtilis was crystallized by using ammonium sulfate as precipitant and in the presence of chromatographically purified L-tryptophan or L-serine. Large single crystals of tryptophan synthase can be obtained from solutions containing only 10-15% \\(w/v\\) ammonium sulfate. The high reproducibility of the crystals from various batches of protein indicates that the crystals are chemically homogeneous. The stoichiometry of the tryptophan synthase alpha subunit \\(Mr = 31,000\\) to the beta subunit \\(Mr = 25,000\\) has been determined to be 2.2 mol of alpha-subunit/mol of beta-subunit.\]\(#\)Thursday, February 11, 2011 The Olympics Sydney 2010. Heat. The transport system is excellent. On my first day, I took the train to the city \(which had to be done on my own\). It was absolutely fantastic. The train is modern, spacious and pretty fast. We had a great time taking in the scenery. The only downside was the tiny food outlets. You have to be careful not to pay too much for the food, which wasn't always easy because it is very popular. The weather was perfect. We had perfect weather all year. I don't miss winter. There is no snow, rain, hail or cold. I really don't miss anything. Just great weather. So beautiful. On my first night, I decided to experience the city on the tram. I couldn't believe the views we got. This was just after a major train line had been upgraded. Over 20 trains an hour, just goes to show how the trains are so efficient. The city was absolutely beautiful. A modern, clean city. A lot of people though. I could never quite remember just how many \[6d1f23a050\]\(#\)](#)
