I'm working on a universal iOS app in C# and Xamarin Studio and want to enable Universal App caching to speed up the launch time of the app. I'm using Xamarin.iOS 13.7.1.3. What are best practices for enabling universal app caching? How does the switch between RuntimeCache and DefaultCache parameters in Xamarin Studio work? A: If you do not need to support older devices you can use the RuntimeCache parameter to enable and disable app preloading. For more information see this PR If you need to support older devices you should use the DefaultCache parameter. When disabled the app preloads the default Content. To enable the new default cache parameter you can toggle it on in the Build tab in Xamarin Studio. References: The accused, who was allegedly in the habit of looking into the television set at night, allegedly raped a nine-year-old girl at night after watching her sleep A 61-year-old man was arrested for allegedly raping a nine-year-old girl at night after looking into her television set at bedside, police said on Sunday. The accused was identified as Uma Nath, a retired government servant living in west Delhi's Daryaganj area. The girl went to live with her aunt's family after her mother and father's death. She told police that the accused, who was allegedly in the habit of looking into the television set at night, allegedly raped her after watching her sleep on Saturday. The accused has been arrested on Sunday morning, police said.Effects of the three-component terbutaline-formoterol pressurized metered dose inhaler on early and late bron
