ruler.exe and rulercd.exe - The ruler.exe and rulercd.exe programs are both tools that display the height and width of a specific window. If you have to give a person the height and width of an available window, use the ruler.exe program. If your purpose is something other than just giving a person the height and width of an available window, you can use the rulercd.exe program. Both programs can do more than what is listed here, but the two that are listed are easy to use and work well for most situations.
