

Pratik.. i m new to this so if some one can help me.. ive come across a device "Remotecasters Bamboobox Portable Media Center" which works as a mediacenter (i know this device is old and made in China but currently i have to work on this and i don't have money to buy any other device) and this device can be used to Download Movies on it..and it's totally FREE i mean NO 1 BILLION DOLLARS or million\$.. is this device compatible with android os 2.3.6 and android 2.3.x..??and any other android version?? and if no then is there any way to use it in android?? any help regarding this?? will be appreciated.. A: I think this is not possible, android just has just too much security measures in place and using hardware to bypass the security measures is not allowed. To my knowledge every player supports HTTP requests to play remote video content, as yours does. I've got an Samsung Galaxy S2, and the USB ports on it allow for downloading movies, but I'm not sure if that's any different for other android devices. Q: How to override/increase image size in jBPM We have one user who is trying to upload image files in jBPM. It does work until the image size goes above the maximum allowed size. If we try to increase that size then user gets "error" (UI) like the image is to big. Do you know what's going wrong there? Is there any way to increase that limit? A: You could increase the max image size as detailed in the.bpmn document. Also, you could consider using the WADL generator to generate the workflow definition. This generates minimal/optimized.bpmn files to use with the designer. References to health (e.g., weight, temperature, blood pressure, allergies, pregnancy, etc.) are frequently communicated among patients (e.g., doctors and staff), family members, and friends. For example, patients communicate health information to family members and friends using cell phones or other electronic devices. In addition, family members and friends commonly communicate with each other regarding the health of their respective patients using cell phones or other electronic devices. However, cell phone bills associated with a multiplicity of incoming and outgoing calls can be costly and can pose
