This is what happens to our clients,” says Dr. Mahindra. “I personally believe that this technology will be very important to our industry and I look forward to working together to make this technology available to our end users.” (Image credit: Google)

Easy Dental 7.6

Post as GuestIslandbus Best Answer:These are just standard double shot syringes. Many pharmacies and drug stores carry these, or they can be bought on the Internet. 8:53 pm August 27, 2011 Sorry I meant 24 g. Not 7.6. Ignore my post. Post as GuestDeskford My apologies. I meant 24 grams. Not 7.6. Post as GuestKP I'm looking to buy the PANAVIA SMART CEMENT and have heard it's the best and is easy to use. Is that true? Click to expand... You might want to go with the Ortho 7.6 oz (2.2 gm) size cartridges. The latter are widely available and available in an airtight tube as well as a powder. Just buy them and make sure it matches the size of the PANAVIA cartridges. Rather than using a generic brand of Panavia, I'd recommend using the brand you like best. Post as GuestDeskford Which size cartridges (g) are the clear Ortho ones? Click to expand... Probably the 7.6 (0.24 g). Any other that is not the 7.6 is probably a "generic" brand, so you should not have any trouble finding them for less. And yes, it is true that they are the best. However, they are a bit expensive. A tube of 20 of the 7.6 cartridges costs around \$45, whereas a tube of the 7.6-oz cartridges costs around \$23 or so.
