
Kaspersky Antivirus 6.0 Activation Key File

If you used an activation code to activate the application on the Security Server , you can replace the activation code with a Kaspersky key file. The sequence of actions is as follows: 1. Go to the activation page, in the field "Product key" enter the key received from SMS. The code must be in Latin and consist of 6 or 8 characters. 2. Click "Activate the program" in the line "Activate the program with an activation code". Each version of the application requires its own activation code. 3. On the "Spam protection" tab, click the "Activate protection using Kaspersky Endpoint Security" button.
