Girlvania Summer Lust Free Download Game Features Beautiful girls, well-designed atmosphere, story is a bit more heavy and real, and the size is quite large. The game lets you choose your gender, from male to female. And even the voices of girls are so elegant. There are some different stories, each one ending with one of the four girls giving you a present. There are 100 missions, making this game quite long. There are some great minigames and puzzles, and you can easily spend hours playing this game. I really enjoy this game, but its too short. Summer Lust lacks the sex scenes that are featured in the first Girlvania game, and there are none of the five minigames or the puzzles that were in the first game. Thus you dont gain a much from playing it as the first did. You still only get to fuck a few girls at a time, and the blowjob minigames are highly simplistic. Its just a sex game without a story, and that really makes me sad. This is a pity, because Girlvania makes up for its limitations with fine art and animation, as well as sound and music. The game is set in an alternate World War II where Germany, Italy and Japan have triumphed. There are four girls to win, and all these kawaii girls are willing to let you play with them, for credits of course. You start as their servant, and you have to help them get out of their harems. Each girl has her own personal estate, including a spa, a toy shop, a library, and more. There are minigames and puzzles for you to complete too. The Big Blind Girlvania is a love story. It's about a girl who feels cold and wants a guy to warm her up. She goes on a crazy journey where she'll find out if she'll live in the mansion, or will she get stuck in the forest and die.
