My favorite part about Yapsody is they provide lots of great features, including how easy it is for people to buy tickets (Singles anyway). How easy it is to see a summary of the

ticket sales for the events. The export features of customer information is awesome! The scanning app is amazing as well and very easy to give limited access to our volunteers who have found it easy to use the app. Yapsodys reporting is easy and the feature to download ticket holder information is great as we transfer that to Mailchimp and allows us to market our current base of customers about our upcoming movies. Yapsodys Customer Support was VERY much helpful to facilitate our event ticketing needs and they helped us to get the non-profit discount and was easy to do. I would definitely recommend Yapsodys ticketing platform to others. My favorite part about Yapsody is they
