
Lantek Expert 26 Fix

Download

lantek makes it easy for you to find the manufacturing solution that will improve your business. we work with customers around the globe to help you identify the solution that will make your operations run more smoothly and provide you with the ability to make data-driven decisions. lantek is your “one stop shop” for everything you need to automate your business. lantek is the industry leader in software and services for businesses that want to maximize their production efficiency and increase their bottom line. lantek understands that automation is not the solution for everyone. we have spent years listening to customers and have identified three key areas that impact manufacturing companies’ use of automation: lantek is a multinational which is leading the digital transformation of companies in the sheet metal and metal industry. with its patented manufacturing intelligence software, it enables factories to be connected, turning them into smart factories. it rounds off its range of services with cad, cam, mes, and erp solutions for companies that manufacture metal parts from sheet metal, tubes, and profiles using any cutting technology (laser, plasma, oxycut, waterjet, shearing and punching). gegrndet 1986 im baskenland (spanien), einem der wichtigsten europäischen zentren fr die entwicklung von werkzeugmaschinen, ermnglicht das unternehmen die integration von blech- und metallbearbeitungstechnologien mit modernster software fr das produktionsmanagement. lantek ist aktuell marktfhrer in der branche, dank seiner innovationskompetenz und konsequenten internationalisierungsstrategie. mit mehr als 27.000 kunden in ber 100 lndern und 20 eigenen bros in 14 lndern verfgt die firma ber ein umfangreiches netz an distributoren mit weltweiter prsenz. im jahr 2020 erwirtschafteten die internationalen aktivitten 88 prozent des umsatzes.

Lantek Expert 26

lantek expert, the leading 2d cad/cam cutting and punching sheet metal software, offers 34 new features which maximize the productivity and efficiency of client machines. the main development is the capability of running an algorithm to prevent

collisions during the cutting or punching process. expert automatically adds micro-joints to holes or parts that, once they've been cut, could cause a collision between themselves and the cutting head. the new 2020 version of lantek integra incorporates significant interface improvements to adapt it to current design standards. new graphics offer better use of screen space and improve the visual experience. changes to the color palette, icons, font sizes, and some navigation mechanisms are included. this results in greater efficiency in the users daily tasks. also enabled is customer analytics, an advanced statistics panel of the commercial function. these two new features are highlights of the latest software version. they eliminate over 80% of current machine downtime caused by collision. for new devices that automate the loading and unloading of parts, lantek flex3d v40 incorporates automated management of supports and unloading trays. this allows the machine to work fully autonomously. business analytics lantek offers advanced manufacturing and customer analytics that can be accessed from any connected device. when you first log in you can customize your home screen to display the most important information for your role in the company. work with lantek to dial in the best kpis for your company and have a 10,000-yard view of your entire business. our visual display of data allows you to quickly pinpoint inefficiencies or cost centers and act quickly to improve on them. 5ec8ef588b
