the 'three stooges' does come with a few flaws, however. for one, it's a tad too episodic in its pacing, with several lengthy segments that never quite connect to form a complete story-line. that said, the film is often laugh-out-loud funny, and the farrelly brothers do a nice job of channeling the movie's basic premise. the problem with 'the three stooges' is that we've seen all of this before, and not often in quite this over-the-top and extremely crude manner. stooge fans can appreciate the film and find some laughs, but it won't take the place of the originals. it may work well for younger, or more casual, audience members, however, and it's certainly entertaining, although not for those who take themselves too seriously. as usual, larry is the center of attention when it comes to comically skewering all sorts of social situations. apart from larry david, the other acting performance of high note is by david's wife carol kane. kane is a strong comedienne who can deliver comedic timing and delivery flawlessly as she gets into the scenes, giving laughter a fresh, feisty look. her scenes are the most vulnerable, including moe's poker night in the bar, larry's attempt to not fall over due to his bad leg, and an embarrassing moment for her at the end,

where larry falls off the bed and shelly the cat takes over his role, petting the 'deaf and dumb' feline. throughout the picture, she's a flesh-and-blood, warm, down-to-earth companion. her scenes with larry are some of the most enjoyable as they pick up on the comedy and offbeat experiences that are usually removed in slapstick comedy. the highlights include a couple of scenes with larry's usual tormentor, larry david, where shelly is seen snuggling and cooing with her master in a bedroom. perhaps this has something to do with kane, who has recorded several of larry david's appearances on the popular tv talk show, the david letterman show. david is often up to his old tricks as he treats guests like he's their best friend! the highlight is when shelly takes on the responsibility of not revealing that larry is the master and just stay as his assistant,

despite this new protégé with the group, curly was still struggling to maintain his old fall position as the lowly, mousy ornery sidekick to moe. shemp filled this role and helped push curly into it and the former sidekick was enjoying it. this was especially true after the first stooges film (1930s). the camera loved shemp and so more often than not, he was given the camera on his own. by 1931, the stooges were getting headlining features as their own with their own trademark sound effects, graphics, physical comedy and music. this also makes for great slapstick humor that shows that the hero was getting more attention than the sidekick in a film that was a hit. some, including moe with his 30 first oscar nominations are considered the greatest comedies ever made. this was not only because of shemp, but the stooges were receiving oscar attention for their writing, direction and editing. their prolific screenwriters included woody and chris kalounis and larry. during this time, lili damita and her husband, producer albert lewin, were also making a name for themselves with a series of musical shorts for columbia/paramount featuring some of hollywood's most popular composers of the era. although the film failed, it led to lili's meeting with lewin and eventually marrying him in 1937. after three years with the stooges, lili damita became one of the era's hottest stage actresses and lewin produced and directed her in her successful solo screen success 1938 classic, 'king of the khyber rifles.' as lewin prepared to rejoin lili in hollywood, his

choice was obvious: since the three stooges couldn't do it by themselves, he hired shemp to take over the trio's sound effects, writing and editing. 5ec8ef588b
