KEYMACRO is designed to record and store multiple keyboard macros, it is a handy tool to speed up typing. KeyMACRO also lets you manage each of your macros. So, for example, you can record the following keyboard shortcuts. You can record your own shortcuts, or you can download additional macros for different purposes.

Windows Keyboard Shortcuts: WindowsKeyboard has a default set of shortcut key, you can use all or some of them, and you can customize them to your liking. You can switch between the default and your own set of shortcuts using a simple dialog. Mac Keyboard Shortcuts: The Keyboard shortcuts used in Mac OS X are generally very similar to the Windows shortcuts, but you can access the shortcuts in OS X by opening the KeyMACRO application from your Applications folder. You can also manually add or remove shortcuts from the dialog. Keyboard Shortcuts Managers: You can also use keyboard shortcuts managers, there are many. They add a dialog that shows a list of shortcuts and that can allow you to manage the shortcuts you use frequently. * The maximum number of macros and shortcuts you can store in KeyMACRO is limited. For example, with the Windows 7 and Windows

8 versions, you can store up to 8 thousand keyboard shortcuts. KeyMACRO stores shortcuts in the following formats: Windows Shortcut Format: WindowsKeyboard formats shortcuts as either a simple shortcut or as a sequence of keystrokes.
