Kal Ho Naa Ho full movie free download..Q: iPython: How do I find out how many times I pressed a key (history) I have a simple Python code that I run using the IDLE editor in Windows: print("Hello, world") I sometimes accidentally run this code, but I think I've caught it. How do I find out how many times I've accidentally run this code? Is there a way to see the last 10 times I accidentally ran this code? A: You can use Python's trace module. import sys import trace sys.trace_dispatch.install_trace(lambda callbacks, context, event, argv=sys.argv: print "Traced:", event if callbacks: for k, v in callbacks: print v, k else: print(event, argv)) # OUTPUT # Traced: call_function #
