

Blackmagic Design Fusion Studio 16.1b3

!!INSTALL!!

How can I turn off "allow to overlay tool" option in Show Settings? I don't have it, I turned it off a few years ago. And I can't find a setting for it in the Blackmagic Resolve Log Viewer. How can I turn it off? A: I had the same problem and found it in Re-Settings > Resolve > Paint Overlays > Allow Tool Overlays. This option is to disable the "Allow Tool Overlays" icon on the workspace, as that was a glitch in the previous version that I fixed in the next version but it's still saved, you can delete the folder in order to disable it at the next launch: Q: After edit, I don't want to have a dash in my terminal (Linux) Every time I use nano or vim on a command line, to edit files or any other task, my dash signs are lost. I want to have the same dash that I use normally. I put this "cm": export PS1="{debian_chroot:+(\$debian_chroot)}\u@\h:\w\\$(if [-n "\$LOGNAME"]; then echo \u@\h;; else echo \u@\h; fi)\\${debian_chroot:+(\$debian_chroot)}\[\033[01;34m\]\u@\h\[\033[00m\]:\[\033[01;32m\]\w\[\033[00m\]\\$ " export PS2="\[\033[01;33m\]\u@\h\[\033[00m\]\\${debian_chroot:+(\$debian_chroot)}\[\033[01;34m\]\w\[\033[00m\]\\$ " I used this and it worked at the first launch. The problem is that when I edit the file, I use the same tools on my terminal (vim) and I want to keep the same dash/color. I don't want to exit the terminal or press CTRL+D. Is there a way to fix this issue? Thanks in advance for your time. A: Put all the colors into one set of parenthesis, like this: export PS
