Malay (macrolanguage): ftp://ftp.scientific.net.au/pub/p2p/cores/b80-source.tar.gz. You have to unpack the file first, then unpack the folder into a folder next to the file called «download». You can also download the files manually as explained in the README. You'll get the music files, sheet music, and the audio files. You'll need to download and install the required windows version. And yes, I am. -you- download the windows installation files from the Internet or wherever you got them. You can get the installer for Windows 98 SE or XP from Microsoft. The game and its engine are very similar to the small channelizer. So with the right PC, you can get them to work. I recommend the Intel i7 computers. They're cheap, got a good memory bus speed. If you don't have the required computer, you can't download the executable and its related files that are in the same folder. You'll have to download them first separately and then install the program. Installing Windows Games and Working with a Computer General Computer Info: I recommend you to be ready with an ethernet cable and a download manager. It's better to be experienced with using it, you can use a slow connection to download a larger file without need to download it all at once. With the download manager you can resume the download if it ends unexpectedly. *the link to the installer file and the windows 98se version has changed* you can also try to find it from this page: The game was not tested on any other computers, but you can try it. It should work fine. *the link to the installer file of windows xp and the right version have changed* ftp://ftp.scientific.net.au/pub/p2p/cores/b80-source.tar.gz The easiest way to is to go to the page that holds the music (www.mtvmusicgenerator.com) and look for "download". The game is self-contained and does not install anything. You can download this direct from the page like this: ftp://ftp.scientific.net.au/pub/p2p/cores/b80-source.tar.gz. You have to
